## PERFORMANCE METRICS

The following performance metrics for Construction Package 2-3, a design-build project, are intended to give the Authority's Board of Directors and other key stakeholders a high level overview of the performance of this project.

Safety is a top priority and listed first, followed by key metrics for cost, schedule, and quality, as all are fundamental metrics for the management of the project. In addition, and in support of the business aspects of the project, three key metrics are included for economic benefits. The Authority's management team, both on the project site and at the headquarters in Sacramento, will also review other aspects of the project's performance. The Authority will track and monitor the trends of these performance metrics to proactively manage the project.

Performance Metrics

Construction Package 2-3

**COST**

**Design & Construction Support Cost**

[Design & Construction Support Cost] ÷ [DB Invoiced to Date Amount]

1. Design & Construction Support Costs (PCM Invoiced to date) = \$12,448,973.25  
DB Invoiced to date = \$226,923,304.00
2. Currently at 5.5%, performance target is < 6%.

**Contingency**

$[Remaining\ Contingency\ Value] \div [Remaining\ Contract\ Value]$

**SCHEDULE**

**Schedule Performance Index (SPI)**

$[Earned\ Value] \div [Planned\ Value]$

1. Earned Value = \$226,923,304.00; Planned Value = \$234,960,542.20.
2. Currently at 0.97, performance target is >1.

QUALITY

**NCR Resolution Rate**

$[\text{Total NCRs Resolved to Date}] \div [\text{Total NCRs Issued to date}]$

NOTE: One NCR has been issued to date and resolved

**Construction Package 2-3**

**ECONOMIC BENEFITS**

**Disadvantaged/Small/Disabled Veteran/Micro Business Enterprises**

$$\frac{[\text{Total Value of DBE/SBE/DVBE/MB Contracts Signed to Date with the DB Contractor}]}{[\text{DB Contract Value}]}$$

**Reason** –The project is in the Design phase. The majority of the work performed to date is management, mobilization and design work. These activities are performed by the Design-Build Joint Venture and its Designer of Record. The opportunity to hire Small Business sub consultants are very limited.

**Mitigation/Improvements** – The project target is to achieve the 30% goal by project completion. The Project Team set intermediate goals of 3% by June 2017, 10% by December 2017 and 20% by December 2018.

This metric will improve once the contractor begins to execute subcontracts for the construction phase of the project and the contractor is able to commit to a greater degree of small business utilization during construction.

**ECONOMIC BENEFITS (Continued)**

**All National Targeted Workers**

[National Targeted Worker Craft Hours to Date] ÷ [Total Craft Hours to Date]

NOTE: Field construction activities have started with minor demolition of houses and other small buildings.

**Reason:** The majority of work performed to date has been in management, mobilization, and design by the Design-Build Joint Venture and its Designer of Record.

**Mitigation/ Improvements:** More opportunities to hire Disadvantaged Workers when contractor begins to execute subcontracts for the construction phase. We are investigating data received for Crafted Hours to Date. We will update next month.

Construction Package 2-3

Disadvantaged Workers

[Disadvantaged Worker Craft Hours to Date1] ÷ [National Targeted Worker Hours1]

**Reason:** The majority of work performed to date has been in management, mobilization, and design by the Design-Build Joint Venture and its Designer of Record.

**Mitigation/ Improvements:** More opportunities to hire Disadvantaged Workers when contractor begins to execute subcontracts for the construction phase.
